contemporary laminate worksurfaces

welcome to Bushboard

We have been developing kitchen and bathroom surfaces in the UK since 1935 and the idea that everyone deserves great design whatever their budget underpins our entire approach to surfacing.

When you buy a Bushboard product you are buying into our ethos of exceptional quality, exquisite design, excellent value and of course, first class customer care. We are proud that our surfaces are made in the UK.

We want to ensure you get the very best from your new worksurfaces so our products carry a lifetime guarantee as well as a unique installation warranty so you can be sure your Options worksurface will look sensational for years to come.

follow us on our social media channels...

welcome to Options

Stylish, hardwearing and affordable: that's the Options range in a nutshell.

The Options collection is a fresh spectrum of natural looking woods, luxurious marbles and stunning stones with realistic textures designed to help you make your dream kitchen a reality. Options laminate surfaces are easy to choose, easy to fit and easy to style.

This design-led range is created with choice, versatility and realism in mind. Each laminate is specially coated with anti-bacterial protection, which guards against the formation of bacteria by slowing down cell multiplication.

Here in the brochure, you'll find the entire Options range of worksurfaces, splashbacks and upstands.

Don't forget to follow us online and share your creations using @bushboard.

inspiring design

See your kitchen come to life with our online Design Studio tool.

The choice of a kitchen worksurface is design led. We have focused on showcasing a selection of our designs to inspire you and show how our worksurfaces, splashbacks and upstands can work together to create an amazing kitchen space.

You could even order some samples and try pulling your look together in a mood board! Find more inspiration on our social media channels.

Many of our retail partners nationwide have our products on display; a great way to help you decide.

To get visualising and find a showroom near you, visit our website at www.bushboard.co.uk.

timeless elegance

Timeless elegance meets contemporary chic in the Options marble range. You are guaranteed to make an opulent statement in any kitchen.

Choose from white, grey and taupe marbles with natural veining, complex depth of colour and an ultramatt texture for a luxurious, clean-lined aesthetic.

For wide open spaces, larger veining looks impressive on worksurfaces and wrapped around breakfast bars, smaller veining works for more compact kitchens.

Rich, dark colour palettes of navy, charcoal and emerald green create atmosphere in a space of any size, allowing you to create a distinctly top-end look.

They truly are affordable luxury.

naturally beautiful

Contemporary and organic, the designs in the collection combine beautifully with traditional hand painted or sleek slab doors in dramatic colours. Run the design through worksurface and splashback to outstanding effect or create a contrast by teaming with a statement splashback.

These designs are so full of character and charm it makes them timeless. Such as our Options Nagoshi Pine Worktop which is finished in a beautiful wood heart effect, highlighting realistic wooden grains on a modern matt finish.

So make a statement and bring some nature into your new kitchen with these impeccable designs.

industrial
details

urban appeal

Get the urban look with an industrial-inspired surface; weathered concrete effects create reclaimed style.

With Roche finishes that replicate the rugged texture of a real stone worksurface, Woodstone Blanc, Woodstone Gris and Tectonica look and feel perfectly timeworn with a nod to natural rawness while Underground Stucco, with its Ultramatt texture, is softer than its corroded appearance suggests.

Designed to be distinctive, our Industrial Detail decors pair easily with the mix and match approach of classic industrial: wooden doors, concrete floors, exposed brickwork, burnished metallics and reclaimed accessories complete the look.

natural elements

Bring the outdoors in with a selection inspired by the beauty of nature.

Our Industrial Details family showcases how honest patterns combined with principal colours deliver worksurface designs full of character.

This brand new selection of surfaces has been specifically developed to reflect current trends in home design, think naturally derived materials including stone and wood, natural light and greenery.

Pictured right: Walnut Appalaches worksurface in ultramatt texture with Alloy Emerald Scallop splashback.

a nod to nordic

The clean and cosy vibes of Scandinavian chic we know and love form the basis of the Scandi style trend, an attitude that embraces warmth, cosiness, family and mindfulness.

Rustic farmhouse meets mid-century modern in the Scandi interior. The perfect space for Options woodgrains.

These notions are realised in light, bright spaces with warm white and washed grey palettes, soft fibres and pale woods.

Dark woods can work in the Scandi kitchen too, by injecting Scandi Noir. Giving Nordic vibes a modern spin by reworking using a dark, moody palette.

lustrous looks

Inject glamour with a Higloss Strass surface.

Available exclusively in black and white, our two higloss monochrome Strass worksurface designs include iridescent metallic flecks. These eye-catching surfaces provide a chic, glamorous look, adding luxury to the most hardworking of interior spaces.

If your look demands a more subtle sparkle take a look at Absolute, our jet black decor which has been teamed with fusion texture.

echoes of nature

The Natural Elements concept is all about appreciating nature and it's positive influence on our wellness and reflecting that in our homes.

Bringing natural textures into the kitchen helps create a sense of calm, with an interior hideaway that feels far removed from the complexities of modern life.

When it comes to stone inspired decors you'll find realistic replicas in the Options collection including roche-finished cements, weathered slabs with natural looking imprints and even a trend-led, candy-coloured terrazzo.

Our focus on thoughtfully reproduced texture gives Options stones an authentic look and feel, without the price tag.

a guide to texture

Marrying the right texture with the right design is a skill in itself and brings a design to life. We've worked with eight textures across our range to do just that.

Our textures are carefully chosen to complement each decor and take it from laminate to lifelike.

This quick guide helps you see our textures in more detail and look at the matrix on page 39 to see which texture your chosen worksurface is available in.

Don't forget to use our speedy sample service to see the final result for yourself. Simply visit our website to order yours today!

be upstanding

Small details make a big difference.

That's why every worksurface in the Options range comes with a matching upstand. Upstands continue the surface decor up the wall to protect paintwork and create a seamlessly elegant finish.

Upstands are finished with the same Q3 or Q8 profile and are sealed in place with Complete coloured adhesive for a perfectly co-ordinated finish.

Alloy™

Splashbacks

Bring your dream kitchen design to life with a beautifully patterned splashback that fills the entire wall space behind your hob, without compromising safety.

With **Alloy**, say goodbye to tiles and hello to a high performance, statement splashback you can place wherever you want.

Your **Alloy** splashback is fire-safe behind any hob and waterproof behind any sink; with simple sizing and no need for an expensive glass cover, to break up your design with a stainless steel hob panel.

Just cut, fit and cook.

What is an Alloy Splashback?

Until recently, simple wall tiles were the easiest and most popular way to protect kitchen walls from cooking splashes of grease or water.

Tiles, however, can be a real pain to clean and maintain over time. Tile grout gets mouldy and starts to look old really quickly.

A splashback is smooth, stylish and easy-to-clean solution to protect kitchen walls.

Alloy splashbacks are patterned or coloured aluminium splashbacks, crafted to give you complete design freedom all around the kitchen - even in the Hot Zone behind the hob, unlike other splashbacks.

Alloy is a fire-resistant aluminium composite panel, available in different variations & sizes with aluminium trims. **Alloy** can be used in combination for wall lining or as a kitchen splashback, in a wide variety of kitchen design layouts. The 4mm thick panel system is uniquely manufactured using a composite substrate and has excellent rigidity and toughness but is also lightweight, making **Alloy** easy to install, clean and maintain.

Welcome to Alloy.

more great reasons

Exclusive 3 year joint guarantee

Use Complete for peace of mind and an exclusive 3 year joint guarantee.

Get the final installation right by asking your installer to use Complete, our bespoke adhesive and sealant.

Complete bonds and seals worksurfaces, upstands and splashbacks and is backed by our exclusive 3 year guarantee on joints, giving you superb performance at a modest price point.

Available in a wide choice of colours designed to complement our Options surfaces, Complete will give you the perfect watertight result.

Full joint guarantee details are available on our website or from the Business Support Team.

The team can offer advice on installing and maintaining your Options surfaces. The Installation, Care & Maintenance leaflet is included in every worksurface and is also available online.

Bushboard offer Complete sealant colours to complement our full range of worksurfaces. The sealant colours in our matrix on page 41 are our suggestions, feel free to use any colour from the selection that you deem more suitable to coordinate with your chosen surface.

to buy Bushboard

At Bushboard we're passionate about everything we do and we're always here to help.

We invest heavily in high quality manufacturing and work with the best materials and suppliers. Our values of partnership, loyalty and an ethical approach mean we do what's right; that's why we've been around since the 1930s.

Our commitment to quality management is proven by our ISO 9001 certification and our ISO 14001 is testament to our passion for reducing our environmental impact.

Even after Bushboard products arrive in your home we strive to assure a quality installation. Our Complete adhesive and sealant range is designed to make the installer's life easier and assure a quality long-lasting installation for you.

Quality

Manufacturing with the finest materials is what gives Bushboard worksurfaces their signature quality. While beautiful and stylish to look at, they are also constructed to cope with the wear and tear of everyday living. Independently tested to BS/EN438, your Bushboard worksurface is designed to withstand knocks, abrasions, chemicals, cigarette burns, steam, stains from juice, tea, wine or coffee. It is also highly resistant to heat, although we recommend the use of a protective pad as saucepan bottoms can become extremely hot.

Options worksurfaces are designed to perform below the surface too; a resin impregnated moisture resistant barrier combines with Bushboard's unique 'Tekseal' cast resin drip-edge to completely seal the underside against moisture penetration from everyday spills. However, it is really important that spills are mopped up immediately to reduce unnecessary damage.

Care & Maintenance

Bushboard worksurfaces are so easy to maintain. On a day-to-day basis all you need to do is wipe them down with a moist cloth and your favourite mild detergent. For more stubborn marks such as fruit juice and coffee, leave the detergent to soak on the surface for a little while before rinsing thoroughly. Obviously, your worksurface can become damaged if mistreated, so we recommend some sensible measures like placing hot pans or casserole dishes on protective mats and mopping up spills quickly. As with any laminate worksurface, you should avoid chopping, cutting or placing hot items directly on to the surface.

Textures

Premium textures need a little more care and attention. Please remember they are fashionable finishes and tend to show marks and scratches more easily with everyday use. This is also true of darker, plainer and matt finishes.

Bushboard worksurfaces are guaranteed for their lifetime. Bushboard will make good by repair and/or replacement (at its discretion) any Options product of its manufacture which can be shown to have failed by reason of defects in its manufacture, subject to fair wear and tear, provided the product has been installed and used in accordance with the manufacturer's instructions and that the products are used for their intended purpose. Proof of date and place of purchase required. This guarantee is in addition to your statutory rights as a consumer and does not affect your rights in any way.
